

# User Documentation

## JustGrades

### Grade Tracking and Management Application

## Overview

This web application is designed to manage the educational process: user registration, grade tracking, and grade assignment. The system supports three main user roles: **Student**, **Teacher**, and **Administrator**. Each role has specific functionalities and access rights.

## Registration and Login

### Registration

- Click the "**Register**" button on the main page.
- Fill in the required information (full name, email, password, etc.).
- Select your role (Student, Teacher or Admin)

### Login

- Navigate to the "**Login**" page.
- Enter your email and password.
- After successful login, you will be redirected to your role-specific dashboard.

## Role: Administrator

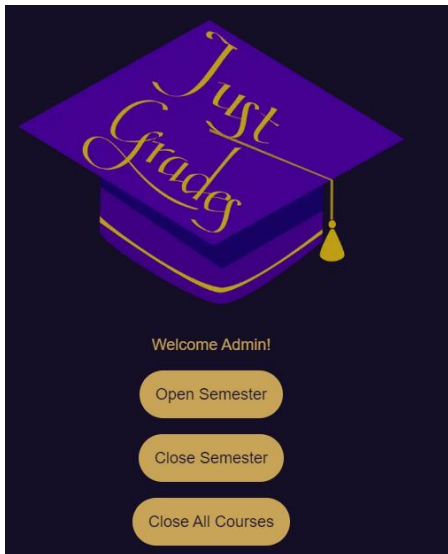

### Available Features:

- Open and close academic semesters.

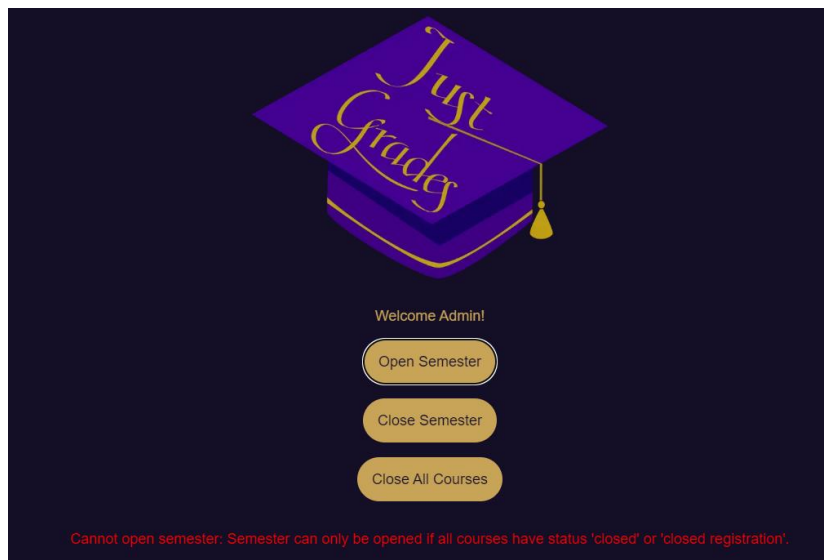

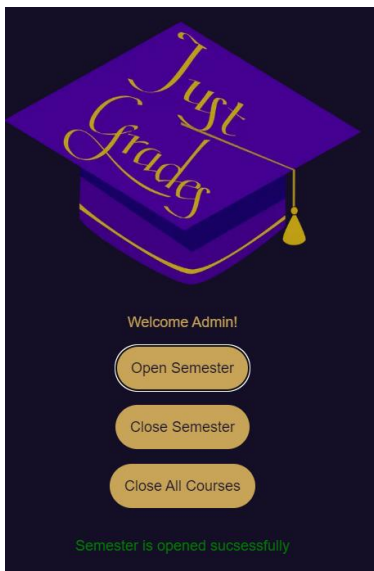

- Close all courses to finalize the semester.

### Usage Instructions:

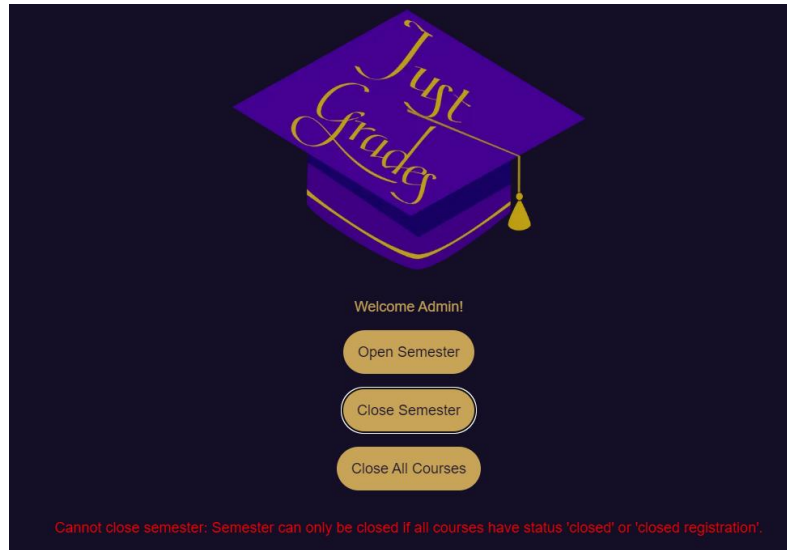

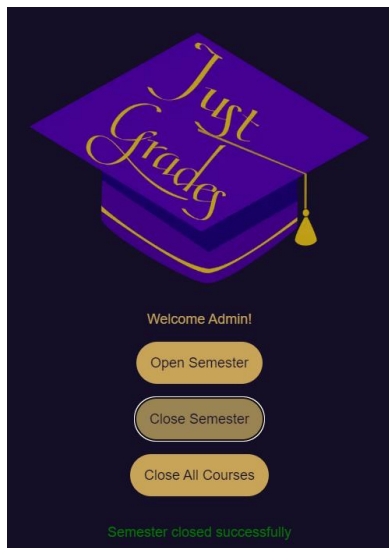

- After login you will be redirected to the "**Administration**" panel.

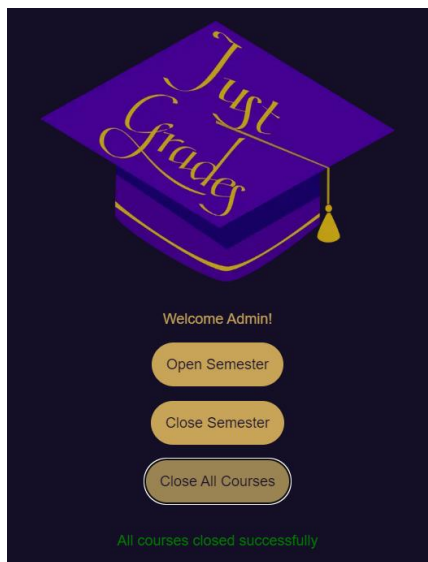

- To open a semester, click "**Open Semester**".

- To close a semester, click "**Close Semester**".

- To close all courses, click "**Close All Courses**".

## Technical Notes

- The application supports modern browsers.
- Recommended browsers: latest versions of Google Chrome, Mozilla Firefox, or Microsoft Edge.
- Data is stored on the server built with Spring, Java, and JPA.
- Role-based authorization and session protection are implemented for security.
- Instructions for installing the environment and running the application can be found in README.md
